# BUSINESS INFORMATION SYSTEMS (INFS1001)

# TUTORIAL - WEEK 10

# AGENDA

Review

Driving enterprise integration and change

Questions

Wrap-up

# REVIEW

- What's the purpose of a BMC?

- What's the purpose of Systems Modelling?

- Where's the value in the Metaverse?

# DRIVING ENTERPRISE INTEGRATION AND CHANGE

- A medium size manufacturer has decided to replace their old information systems with an ERP solution.

- The management view this as a good strategic move but also recognise that this is a big change for the organisation.

- The new system will significantly change the way people do their job.

- Sometimes this change will be viewed as positive and other times negative but it will always be some form of change.

- The CIO needs to build a business case that highlights benefits but also ensures that the rest of the management understands the risks.

- What advice will you give the CIO?

- Describe any specific actions you think the management should take to support and drive this significant change.

# CLASS EXERCISE PRACTICE EXAM QUESTIONS

Split up into groups and you will be assigned a few practice exam questions to answer.

Once done, your group will present the answer to the class.

1. Describe the two styles of leadership as discussed in class.

2. How do you believe the role of the CIO has changed over the last 20 – 30 years?

3. What are the major cyber security threats that you believe might impact an educational institution like ANU?
